Cigna Healthcare provides access to virtual care through a national telehealth provider, MDLive located on myCigna, as part of your health plan. Providers are solely responsible for any treatment provided to their patients. Video chat may not be available in all areas or with all providers. This service is separate from your health plan's network and may not be available in all areas. **Virtual care does not guarantee that a prescription will be written. Refer to plan documents for complete description of virtual care services and costs, including other telehealth/telemedicine benefits. For IL customers a primary care provider referral may be required for specialist virtual visits.
